

Figure A.3: AI-Generated Index of Occupational Exposure to AI (GENOE) Over Time Including and Excluding Ethical Considerations

Source: Authors' formulation based on data from O*NET, Felten *et al.* (2021); Webb (2019); Frey and Osborne (2017); Pizzinelli *et al.* (2023). *Note:* This figure displays the baseline GENOE for the next one, five, and 10 years, along with alternative indexes constructed both with and without ethical considerations. The index measures the likelihood that occupations will be displaced by AI within each time horizon and under each methodology.
